Substantial work on the document **Youth Voices: Facts, Opinions and Solutions** were carried out during this time. I had the privilege to work as part of the Intergovernmental consulting team as the Ministry of Youth was the main stakeholder in the development of the document. Wide consultations across the nation were held with young people leading the discussions.

The follow up work on the National Youth Policy developed in 2003 was also conducted during this time and I had the opportunity to spear head programmes and services to young people such as Rehabilitation

Programmes for at risk groups, offenders and Youth Friendly services.

2005 National Disaster Management Centre, Male', Republic of Maldives

Manager

- Managing the Internally Displaced Population Unit following the Indian Ocean Tsunami of December 2004

Psychosocial needs of the tsunami victims were addressed initially through MIDP, and with the support of the international donor agencies.

2001-2005 Director

1995-1998 Assistant Director

URC is mandated to ensure the protection of the rights of all children in the Maldives. Managed the Unit and was involved in policy making at the national level towards the improvement of the situation of the Maldivian child. Much work on introducing the concept of the Right of Children was initiated at this time with awareness programmes designed to prevent a backlash by the community. Furthermore capacity building and provision of services to all outer lying atolls and island communities to children and families were achieved. National programmes such as National Registration Programme where mechanisms for birth registration of all children of the nation were established and currently remain in place, with funding secured from international donors and mechanisms set up at all levels of governance.

Treatment and rehabilitation programmes were begun at this stage where programmes targeted for young people to reduce high risk behaviour, reduce offending behaviour, and improve their protective skills such as self esteem and other life skills were conducted to groups in Male as well as in Rehabilitation Centre for Children in Maafushi.

Represented the Maldivian Government and presented the status of the Maldivian child to the United Nations Committee on the Rights of the Child
