PROFILE

Mohamed Shaheem Ali Saeed is a qualified scholar in Islamic Sharee'ah with adequate experience in the field. Since He started his career as a Quran Teacher in 1999, he has developed a strong knowledge in Islamic Sharee'ah and working very hard to promote Islam as a moderate Religion throughout the country he is a member of a lot of Committees and Institutions such as Sharee'ah Council (Maldives Monetary Authority), Fiqh Academy of Maldives, Scholars Majlis (Adhaalath Party).he is a Hafiz of the Quran, a competent scholar, a political leader and an Imam. He has penned lots of books on various Islamic topics including terrorism; have written articles for newspapers and magazines. My capability to handle multiple tasks provides lots of challenging opportunities to advance my knowledge in the field of Islamic Sharee'ah.

He has also participated in various forums and discussions and also given eloquent speeches in Jordan, Saudi-Arabia, Sri-Lanka, Malaysia, United States, UK, Libya, Azerbaijan and Bangladesh.

WORK HISTORY

Ministry of Islamic Affairs <i>Minister of Islamic Affairs</i>	Present
Villa College – Faculty of Shariah and Islamic Studies <i>Dean</i>	2011 – 2012
Ministry of Islamic Affairs <i>Minister of State for Islamic Affairs</i>	2008 – 2010

Summary

Mohamed Shainee, BEng (Hons), MSc., MMM. has over 10 years of experience in the technical, business and management aspect of fisheries and marine resources in the Maldives. He has worked as the advisor to the Minister of Fisheries; Managing Director of the largest public company (Maldives Industrial Fisheries Company); and as a civil servant in charge of the fisheries and marine technology related areas in the Ministry of Fisheries and Agriculture, Maldives. Academically, he holds a PhD in offshore fish cage designing from NTNU, Norway; holds a Masters in Marine Management degree from Dalhousie University, Canada; MSc. in Marine Technology from NTNU, Norway; and BEng (Hons) degree in Marine Technology from University of Plymouth, UK. He also has been actively working as a national and international consultant in the environmental projects, including carrying out some of the largest EIAs in the Maldivian coastal development projects. During the public carrier, he has also served as a member of the board of directors in Maldives Transport and Contracting Company, where he also served as the chair of the sub-committee on remuneration.

Education

08.2009 – 10.2013

Conceptual Design, Numerical and Experimental Investigation of a SPM Cage Concept for Offshore Mariculture, Norwegian University of Science and Technology, Norway (Level: Doctorate)

09.2005 - 10.2006

Marine Management, Dalhousie University, Canada (Marine Technology – Level: Master's degree)

Subject include: Contemp. Issues Ocean Mgmt./Dev.; Communications & Mgmt. Skills; Community Based Co-Mgmt.; Estuary, Coast & Shelf Dynamics.; Environ. Assessment; Marine Science & Tech.; Coastal Zone Mgmt.; Fisheries Mgmt.; Marine Impacts; Integrated Coastal & Ocean Planning; and **Graduate Project:** Analysis of Sewage Impact on the Marine Environment of the Maldives.

(Average grade: A)

08.2001 - 01.2003

Marine Technology, Norwegian University of Science and Technology, Norway (Marine Technology/Naval Architecture – Level: Master's degree)

Subjects include: Marine Structures; Marine Dynamics; Marine Hydrodynamics; Applied Mathematics and Computer Methods in Petroleum; FEM in Structural Analysis; Sea Loads; Stochastic Theory of Sealoading; Fatigue and Collapse of Marine Structures; Marine Operations; Oceanography; Risk Analysis of Marine Structures; Experimental Methods in Marine Hydrodynamics; and **Project:** Analysis and Design Considerations for the Mooring Line of a Surface Buoy.

(Average grade: B)

07.1997 - 07.2000

Marine Systems Technology, University of Plymouth, UK (Marine Technology/Naval Architecture - College / University, Bachelor's degree)

Subjects Include: Fundamental Mechanics & Fluid Mechanics of Marine Vehicles & Structures; Transferable Skills & Techniques; Fundamentals of Marine Electronics & Electro-technology; Fundamental of Mathematics & Further Mathematics for Marine Studies; Construction of Marine Crafts; Introduction to Manpower Studies & Accounting; Data Handling & Analysis; Fundamentals of Marine Dynamic Systems;

Introduction to Marine Commerce; Introduction to Business Organizations & Marketing; Mathematical & Further Mathematical Methods & Models for Marine Studies; Modeling Marine Dynamic Systems; Marine Design & CAD Systems, Performance Analysis of Marine Systems; Underwater Vehicles & Materials; Applied Fluid Mechanics & Thermodynamics for Marine Systems; Classical Marine Control Systems; Design & Analysis of Marine Structures; Operational Performance of Marine Systems; Underwater Dynamics & Communication Systems; Properties of Marine Materials; Manufacturing & Workshop Processes (with 30 hrs. and 60 hrs. of Electrical & Electronic Practice and Manufacturing & Workshop Practice, respectively); Performance Modeling in the Marine Environment; Design & Evaluation of Underwater Systems; Small Craft Surveying; Performance Prediction in Marine Environment; Applied Marine Systems Design; Design & Simulation of Marine Auxiliary Systems; Marine Systems Design; Advanced Underwater Systems; Discrete Marine Control Systems; Advanced Marine Control Systems; Material & Analysis of Marine Auxiliary Systems; and **Hons. Project:** An Investigation into Static, Dynamical and Damage Stability of a Typical Maldivian Fishing Vessel, which also received the Royal Institution of Naval Architect's and Institute of Marine Engineers price for the best project)
(Average grade: A)

Positions

- 08.2009 – 10.2013 **Researcher**, Norwegian University of Science and Technology, Norway (*Sector: Research & innovation, Specialization: Structural analysis, Role: Specialist*). While carrying out the research work in relation to PhD, 25% of the work load includes helping to deliver (lecturing) a master level course: Sustainable Utilization of Marine Resources.
- 02.2009 - 08.2009 **Advisor to the Minister**, Ministry of Fisheries and Agriculture, Maldives (*Sector: Other (describe), Specialization: Other, Role: Top Management*). The works include technical advice to the government on fisheries and marine resources related issues.
- 10.2008 - 02.2009 **Managing Director**, Maldives Industrial Fisheries Company Limited, Maldives (*Sector: Business & Adm. support, Specialization: Corporate Responsibility, Role: Top Management*). The company is the largest public company in the Maldives, purchasing and processing (including canning) fish products for national consumption and international export. The duties include planning, implementation and day to day running of the company that employed more than 1,500 employees from different countries.
- 11.2007 - 10.2008 **Assistant Director General**, Ministry of Fisheries, Agriculture and Marine Resources, Maldives (*Sector: Other (describe), Specialization: Other, Role: Top Management*). During this period the main scope of work was making and implementing policies related to fisheries, agriculture and marine resources. Further to research and give policy advice to the Minister. During this period I also acted as the Fisheries component coordinator for the International Fund for Agriculture Development's (IFAD) Post-Tsunami Agriculture and Fisheries Rehabilitation Program.
- 10.2006 - 11.2007 **Deputy Director**, Ministry of Fisheries, Agriculture and Marine Resources, Maldives (*Sector: Other (describe), Specialization: Other, Role: Middle Management*). The main part of the work was to plan and implement the installation of Fish Aggregating Devices (FADs) in the marine waters of Maldives. Further, the works include the overseeing of most technical works related to fisheries and marine resources. I also had the responsibility of running the following projects: The

construction and implementation of 85 ft Fishing Vessels procured under Japan's Non-Project Grant Aid; The implementation of Tsunami aid (Fishing gear, Engines, Fishing equipment, Damage assessment to fishing vessels and engines) by Japan's Non-Project Grand Aid; The implementation of of Tsunami aid (Fishing gear, Fishing equipment, Construction of Fish market, Construction of fishing vessels, In-kind assistance) by World Bank and FAO; Planning, implementation and monitoring the projects to construct fish markets, ice plants, slipways and cool storages in major fishing islands of the Maldives.

01.2003 - 09.2005

Assistant Director, Ministry of Fisheries, Agriculture and Marine Resources, Maldives (*Sector: Other (describe), Specialization: Other, Role: Middle Management*) Planning, implementation, development and overseeing the project, Installation of Fish Aggregating Devices (FADs and Bait FADs) throughout the Maldives. Further to give technical input to all the technical projects related fisheries and marine resources.

07.2000 - 08.2001

Fisheries Research Officer, Ministry of Fisheries, Agriculture and Marine Resources, Maldives (*Sector: Other (describe), Specialization: Other, Role: Project Management*) Planning, implementation and development of Fish Aggregating Devices (Fads and Bait FADs) throughout the Maldives. Further to give technical input to all the technical projects related fisheries and marine resources.

09.1994 - 07.1997

Assistant Project Officer, Ministry of Fisheries, Agriculture and Marine Resources, Maldives (*Sector: Other (describe), Specialization: Other, Role: Employee*) Development and installation of Fish Aggregating Devices (FADs) throughout the Maldives.

Projects

06.2004 - 05.2009

Environmental Impact Assessment, Maldives
Between this period 20 EIAs were carried out and reports published in the Maldives. The EIAs include tourism development, harbor construction, sewage impact studies and airport construction works. Some of the assessments were done for international companies, while others for government and private companies.

Training/certifications

05.12.2004 - 12.12.2004

CAD/CAM for Mechanical Component Design and Manufacturing, GIK Institute of Engineering Sciences and Technology, Pakistan

01.07.1997 - 01.07.2001

1999/2000 Institute of Marine Engineer's Prize for the Graduate Achieving Best Overall Performance, The Institute of Marine Engineers, UK.

01.07.1997 - 01.07.2001

Prize for the Best Project in Marine Systems Technology, Royal Institution of Naval Architects & Institution of Marine Engineers, UK

10.03.1997 - 09.04.1997

Regional Short-term Training in Hydroacoustic Equipment, Southeast Asian Fisheries Development Center, Thailand

20.06.1995 - 18.12.1995

Regional Training Course in Fishing Technology and Resource Conservation, Southeast Asian Fisheries Development Center, Thailand
Also awarded with Honors and Prestige Diploma for the Most Outstanding Achievement in the Course of Fishing Technology and Resource Conservation.

Thoriq has more than 17 years experience in the field of building services engineering design, supervision &, project management of construction projects and M&E building maintenance services.

Being the first Graduate Building Services Engineer in the Maldives, Thoriq has involved in designing the Building Services Systems for most of the public buildings, private buildings and tourist resorts in the Maldives during the last 18 years.

After completing Masters in Building Science Course at National University of Singapore (NUS) on Nov 2001 he joined a Singapore based international multi- disciplinary consultancy company called Black & Veatch (SEA) Ltd. He was attached as an M&E design engineer. Thoriq also gained experience on site by working as an assistant resident M&E Engineer for the upgrading of Chestnut Avenue Water Works, Singapore.

Thoriq returned to work in the Maldives on July 04. Some of the major design work he has under taken since returning to Maldives was the design of M&E services for the Dusit Thani Maldives at B. Muhdhoo, Maamigili Airport, W Maldives Resort at Fesdhu, Proposed Regent Resort in the Maldives, Proposed Renaissance Maldives, Proposed JW Marriott Maldives, Proposed Bvlgari Resort. Thoriq was also the Project Director representing Maldivian Government during the reconstruction of Houses in 9 Islands that were destroyed during the tsunami that hit Maldives in Dec 04.

Thoriq left Civil Services on November 2008 and now work at Gedor Consulting Pte. Ltd on full time basis as a Director in charge of all Building Services related design consultancy and supervision works.

Thoriq Initiated the M&E Building Maintenance Section at Gedor in 1998 which was the first routine M&E maintenance services setup in the Maldives. Today Gedor Building Maintenance Services is one of the largest setup in the Male' that provides 24 hours M&E services in Male'.

Design changes including all the M&E of the partly constructed resort were required to upgrade the resort to a Jumerah standard resort. The whole M&E systems including the electrical distribution system, air-conditioning and mechanical system, fire safety, fire alarm and fire fighting system sewerage and sanitation system, water reticulation system and plumbing system for individual bungalows, Sewerage Treatment Systems are being design and the expected completion of the design stage is Dec2011.

Detail M&E Design for Haa Alif Atoll Berimadhoo Resort

Mechanical and Electrical building services design, that consist of scheme design and detail design preparation of specification.

Detail M&E Design for Thaa Atoll Malefushi Resort (Proposed Regent Maldives)

Mechanical and Electrical building services design, that consist of scheme design and detail design preparation of specification of electrical distribution system, air-conditioning and mechanical system, sewerage and sanitation system, water reticulation system and plumbing system for individual bungalows, fire safety, fire fighting and fire alarm system, Sewerage Treatment System etc.

Detail M&E Design for Sh.Gaakoshibee (Proposed Renaissance Maldives)

Mechanical and Electrical building services design, that consist of scheme design and detail design preparation of specification of electrical distribution system, air-conditioning and mechanical system, sewerage and sanitation system, water reticulation system and plumbing system for individual bungalows, fire fighting and fire alarm system, Sewerage Treatment System etc.

Detail M&E Design for Thaa. Ella (Proposed JW Marriott)

Mechanical and Electrical building services design, that consist of scheme design and detail design preparation of specification of electrical distribution system, air-conditioning and mechanical system, sewerage and sanitation system, water reticulation system and plumbing system for individual bungalows, fire fighting and fire alarm system, Sewerage Treatment System etc.

Detail M&E Design for G.D Gazeera (Proposed Bvlgari)

Mechanical and Electrical building services design, that consist of scheme design and detail design preparation of specification of electrical distribution system, air-conditioning and mechanical system, sewerage and sanitation system, water reticulation system and plumbing system for individual bungalows, fire fighting and fire alarm system, Sewerage Treatment System etc.

Detail Building Services Engineering Design for A.Dh. Maamigili Airport

Mechanical and Electrical building services design for the island.

THORIQ IBRAHIM

Project Director for Housing and Infrastructure Redevelopment Unit (HIRU) at the Ministry of Planning Development in Maldives.

Heading the HIRU and the person in charge of coordinating all the international adorners and the Government of Maldives for the construction of that were damaged after the 26 December 2004 Tsunami that hit the Maldives.

*Detail Electrical Distribution System Design, Sewerage Network Design, Water Reticulation System Design for the Anantara Resort in Maldives
Jul 2004-Nov 2005*

Main electrical system design, sewerage network design water reticulation system design between the three islands and with each island and preparation of specification.

*Detail M&E Design for the proposed Shaviani Dholhiadhoo Island Resort.
Sept 2004-Oct2005*

Mechanical and Electrical building services design for the island.

*Detail M&E Design for the proposed Thaa Atoll Kalhufahalaafushi Island resort..
Sept 2004-Oct2005*

Mechanical and Electrical building services design for the island.

*M&E Design of world first W-Resort
Sept 2004-Dec2005*

Mechanical and Electrical building services design, that consist of scheme design and detail design preparation of specification of electrical distribution system, air-conditioning and mechanical system, sewerage and sanitation system, water reticulation system and plumbing system for individual bungalows, fire safety, fire fighting and fire alarm system, Sewerage Treatment System etc.

Project Involvement in Singapore from 2001-2004

*Chestnut Avenue Waterworks Extension Project, Singapore
December 2001 – July2004: Engineer, Building Services*

Mechanical Building Services Engineer for Chestnut Avenue Water Treatment works Extension Project, that involves Raw water from the Upper Peirce reservoir is treated at the Chestnut Avenue Waterworks involving a process of coagulation, clarification, filtration and disinfection. The treatment capacity of the works is currently 273 ML/d and is being extended to 546 ML/d using the state-of-the-art immersed membrane technology. Construction commenced in

THORIQ IBRAHIM

September 2002 and commissioned in November 2003. The construction cost is estimated at S\$162 million.

*Choa Chu Kang Waterworks Upgrading Project, Singapore
July 2002 – July 2003: Engineer, Building*

Involved in the design for the upgrading of water treatment processes at the Choa Chu Kang Waterworks using a process involving coagulation, clarification, filtration, ozonation and disinfection. The capacity of the works is currently 364 ML/d and will be upgraded using the state-of-the-art immersed membrane technology, followed by a new ozonation plant and a granulated activated carbon adsorption plant. Construction is expected to commence in January 2004 at an estimated cost of S\$90 million.

*Upgrading of Kranji Primary School, Singapore
October 2002 – April 2003: Project Manager*

M&E Engineer for the supervision of Construction of A&A works at Kranji Primary School. Major works are modification of Building Services for some of the existing buildings and provision of new Building Services for new buildings added under this Contract.

*Old Folks Home at Hong San Terrace, Singapore
March 2002 – April 2003: Project Manager*

Project manager for the development of an Old Folks Home and a Children's Home at Hong San Terrace under the Ministry of Community Development and Sports. Black & Veatch's role is the M&E design, site supervision and advising the client on the M&E maintenance issues and preparation of M&E maintenance plane for the client.

Project involvement in Maldives from 1995-2006

- Mechanical & Electrical Building Services Design of 9 Storey MMA Building that is under construction Male'.
Project Value: USD 4.2 Million
- Mechanical & Electrical Building Services Design of 7 Storey STO Head Office that is being Built in Male'.
Project Value: USD 3.8 Million
- Mechanical & Electrical Building Services design of 10 Storey building in Male', for Maldives Customs Services.
Project Value :USD 3 Million

THORIQ IBRAHIM

- Mechanical & Electrical Building Services design for 8 Storey Housing flats in Male', for Maldives Housing Board.
Project Value :USD 1.5 Million
- Mechanical & Electrical Building Services design for 10 Storey Office cum accommodation building in Male' for Maldives Ports Authority.
Project Value :USD 3.8 Million.
- Building Services Design of the Fifth Primary School in Male'
Project value: USD 1.7 Million
- Mechanical & Electrical Building Services Design and M&E Project Manager for Ari Beach Resort water Village (100 Beds)
Project Value: USD 5 Million
- Mechanical & Electrical Building Services Design for Reethi Beach Resort Island
(200 Beds).
- Building Services Design and M&E project management for Hakuraa Huraa Resort Island
(140 Beds).
Project Value: USD 7.5 Million
- Building Services Design including HVAC system for Presidents Office Male'.
Project value: USD: 5.5 Million
- Building Services Design of STO- Aifaanu Building.
Project value: USD 2.5 Million
- Building Services Design of Dharubaaruge (Convention center in Male').
Project value: USD 2.4 Million
- Assistant Project Manager Engineer for the Parliament Building Project (Pakistani-government funded.)
- Building Services Design of HD. Kuludhuffushi and GD- Thinadhoo, Regional Hospitals in Maldives.
Project value: USD 2.1 Million
- Lighting Design of Male' Indoor Sports Complex.
Project value: USD 350,000.00
- Electrical and Plumbing design of Rehabilitation Center.
Project value: USD 300,000.00
- Electrical and Plumbing design of Jamaaludeen school,
Project value: USD 1.1Million

Short Courses Attended:

THORIQ IBRAHIM

- Energy Management and Audit, First course on Certified Green Mark Professional (GPM) Programme.
13th to 18th Sept 2012, BCA Academy, Singapore.
- Directors Training: Getting up to speed with Governance (Part 1 & Part 2), conducted by The Institute of Internal Auditors Malaysia.
4th to 5th Nov 2009.
- Director Training Program, conducted by Capital Market and Corporate Governance Institute.
10 to 13 Feb 2009.
- Director Training Program, conducted by Capital Market and Corporate Governance Institute.
24th to 26th June 2008.
- Certificate Program in Tsunami Science and Preparedness, conducted by University of Washington, USA
15th Jul 07 to 2nd Aug 07
- Managing Contracts in Project Environment, conducted by Nanyang Technology University, Singapore
20th to 22nd Aug 2002
- Design & Specification of Electrical Distribution & Protection Systems in Buildings, Conducted by the Institution of Engineers Singapore, Singapore.
30th to 31st May 2001,

Masters Degree Dissertation.

June 2002 Indoor Air Quality Study in Underfloor Air-conditioned Office buildings in the tropics- an M&E Overview
