FOREWORD

The Auditor General's Office (AGO) of the Maldives plays a primary role in auditing the Government's accounts and operations, and in promoting sound financial management and accountability to the Majilis. The general public, international donors and others also have increasingly higher expectations of the Government and they depend on the AGO to help ensure public accountability.

This plan describes the AGO's strategy and planned development initiatives during 2016 and the subsequent sections show the staff resources and planned outputs for each of the AGO's Audit Departments. In using its resources, the AGO will give priority to its statutory obligations under the Audit Act 2007 to issue audit opinions on the financial statements of Ministries and other public institutions. Remaining resources will be allocated to a programme of Compliance, Special and Performance Audits and audit of a number of local councils.

In addition, the plan aims to present the objectives, action steps and timeframe for the Technical Services Department, Corporate Services Department and Human Resource Development (HRD). It addresses how the Departments will progress to support AGO's strategy and growth.

In summary, in 2016 the AGO plans to deliver:

Department 1: Financial Statement Audit - Public Sector

- The financial statement audit of 13 ministries
- Review of 42 local council audits

Department 2: Financial Statement Audit – SOEs and Statutory bodies

- The financial statement audit of 25 SOEs; 22 of which will be undertaken by private sector audit firms on behalf of the Auditor General;
- The financial statement audit of 17 statutory bodies.
- Financial audit of 10 donor-funded projects
- Special review of SOEs requested by Public Accounts Committee.
- Review of 42 local council audits

Department 3: Compliance and Special Audits

Department 8: Human Resource Development

- Human Resource and training and development needs of the AGO

AGO RESOURCES AND PRIORITIES

Legal Mandate

Under section 212 of the Constitution of the Republic of Maldives, the Auditor General is charged with responsibilities to audit and report on the accounts, financial statements and financial management of the following:

- a) All government ministries;
- b) Departments operating under government ministries;
- c) Other government departments and agencies;
- d) All offices and organizations operating under legislative authority;
- e) Independent commissions and independent offices established in accordance with the Constitution and law, and all offices operating under the same;
- f) All offices and organizations operating under judicial authority;
- g) Any other institution or organization required by law to be audited by the Auditor General.

The Constitution also confers on the Auditor General the power to audit and report on the accounts, financial statements and financial management of any institution primarily funded by the State and any business entity, in which shares are owned by the State. The Auditor General also carries out a number of special audits requested by the Peoples Majlis.

Apart from the responsibilities stated in the Constitution, under the Audit Act 04/2007 the Auditor General is also charged with the responsibility of promoting good governance and accountability of state institutions, State-Owned Enterprises and business entities in which the State owns shares, and strengthening financial management of the same.

It is also the responsibility of the Auditor General to set auditing standards, rules and regulations governing the provision of audit and assurance services in the Republic of Maldives.

In addition, the Auditor General is responsible for monitoring and assessing the financial interests of the President, the Cabinet Ministers and Heads and other Members of the Statutory Bodies, whose financial interests must be declared annually to the Auditor General under the Constitution of the Republic of Maldives.

Legislative changes affecting the 2016 AGO work plan

i. Public Finance Act 2006

In February 2013 the third amendment to the Public Finance Act 3/2006 was enacted. Clause 35 (a) of the Public Finance Act now states that the Accountable Officer designated under this law in each state office must, within 3 months after the end of a

calendar year, prepare and submit to the Auditor General a written report containing the following information:

- i. A statement of the estimated revenue and expenditure for the office that are in the budget passed by the People's Majlis for that financial year;
- ii. A statement of the actual revenue and expenditure of the office in the financial year;
- iii. A report of the operation of the office in the financial year.

Due to the possible implications on the workload of the AGO, a legal opinion was sought from the State Attorney General as to the definition of 'State Office'. The Attorney General's opinion was that under the Act that state office, with sub offices, departments and branch offices can be considered as a single accountable entity under the Accountable entity for the purpose of auditing.

With over 600 individual Government entities, this represents a considerable challenge for the AGO. However, during our financial audits we would visit all entities which were material to the financial statements, and those that are not material are visited on a sample basis.

General Priorities

The current staff strength of the AGO is 136 staff (including AG, AAGs and staff undergoing long-term overseas training). Recruitment before the end of 2015 will involve a further 2 staff; and the budget requested for 2016 allows for an increase of another 14 staff bringing the total for the AGO of 152. The programme of work put forward in this plan – both in terms of the breadth of coverage and meeting the AGO's Statutory deadlines - is based on a staffing level of 150.

The priority for the AGO in 2015 was to undertake the financial audits of the 2014 accounts of Ministries and State-owned Enterprises (SOEs) and to clear the backlog of reports outstanding from the 2011, 2012 and 2013 audits. Last year the AGO also undertook a programme of special audits of Ministries and central Government institutions, and with the additional staff recruited in 2015 a programme of compliance audits of local authorities.

In 2016 the AGO will build on this progress. All 2015 ministry audits, statutory bodies and SOE audits will be planned by the end of 2015 (and interim audits will be completed for the larger entities). This will put the AGO in a good position to complete the 2015 audits by the 31st May 2016 deadline, which is set out in the Law on Public Finances (Law No. 3/2006).

The AGO plans to change its approach to local council audits by outsourcing these audits – except for audits of local councils in southern atolls falling within the remit of AGO's Addu branch – to small and medium practices (SMPs) plying their trade in the Maldives. The AGO will be mainly responsible for setting the standards for and ensuring quality of

these audits; the audit directorates would be assigned the task of reviewing the outsourced local council audits. This would ensure an adequate and appropriate response to the amendment to the Public Finance Act with the AGO's ability to discharge its legal mandate greatly enhanced. Due to a lack of capacity within local councils to prepare financial statements in accordance with the applicable financial reporting framework, the AGO has thus far been unable to conduct financial statement audits of local councils mandated under public finance legislation. Therefore, the AGO is providing leadership in training of accounting staff at local councils to prepare financial statements. In this regard resources allocated in 2015 annual work programme for 2014 local council audits will be reallocated to training of local council staff.

The AGO has continued its performance audit capacity building efforts to deliver a programme of performance audits, with the help of the World Bank Development project. Two pilot performance audits planned for 2015 have been completed – an audit report has been published in respect of one of these performance audits while another report is in the pipeline. The proposed programme is shown on page 26. Also under the project, the AGO plans to conduct information systems audits. In 2015 pilot audits of performance and information systems will be conducted under the guidance of project consultants.

Office structure

To help focus the AGO's work and to help manage its deliveries, the AGO has organized itself into five Audit Departments and three Support Service Departments:

	Audit Departments	Type of Audit
1	Financial Statement Audit - Public Sector	Financial statement audit
2	Financial Statement Audit – SOEs and Statutory bodies	Financial statement audit
3	Compliance and Special Audits	Compliance reviews and special investigations
4	Performance Audit	Performance audits and reviews
5	Consolidation, Debt and Revenue Audit	Financial Statement audit and Compliance audit

2	Corporate Services Department	Stakeholder relations, legal services, financial interest monitoring and AGO library Finance, Administration, IT, MIS, maintenance and logistics
3	Human Resource Development	Human resources

	<p>Deliver short-term and long-term training based on the needs assessment.</p> <p>Coordinate the AGO's efforts towards the use of overseas training to meet staff development needs identified by Human Resources Unit.</p> <p>Conduct research pertinent to the AG's mandate.</p>
--	---

The new structure has been established during the current fiscal year. Some key positions, however, have remained vacant over this time, and these need to be filled to ensure adequate management services oversight.

Technical Services Department

1. Licensing, Quality Control, Methodology Development and Project Management Unit.

This unit carries out the following functions of the AGO:

3. Information Systems Audit and TeamMate Administration Unit

Information Systems Audit Unit has been established to meet the growing needs for audits of information systems resulting from the increased use of ICT across the public sector for the delivery of public services.

The objectives of this unit is to provide assurance on whether the development, implementation and maintenance of IT systems at public entities help them meet their objectives, safeguards information assets and maintains data integrity.

Information System audits will be performed either in conjunction with financial, compliance, special and performance audits or as a stand-alone exercise.

Currently, there are three members of AGO staff, which include a manager and two senior auditors, are working in the IS audit unit.

Apart from audit duties the unit is also responsible for the administration of TeamMate® audit management software, and provides technical support to audit staff.

Human resources and office development initiatives taken by AGO

In August 2013 an agreement was signed with the KOSI Corporation, Northern Ireland to deliver technical and other support to the AGO under a 2-year Capacity Development Support Project funded by the World Bank. The inception phase of the project is currently being undertaken and the technical inputs on the major components of the project has commenced in December 2013. The project activities fall under the following broad components:

Human Resources

- training for managers to improve staff and project management skills;
- advice on the AGO's policies and procedures on HR to ensure that they meet best practice (eg recruitment, promotion)
- practical help in implementing a staff appraisal system

Financial Audit

- training and practical help in the audit of revenue, debt, consolidated financial statements, and donor-funded project audits
- assistance in the use of Computer-Assisted Audit techniques and the audit of IT systems

Performance Audits

- manuals, training and pilot performance audits

Audit Impact

- Assistance in working with PAC
- Implementing a communications strategy
- Updating the AGO Act

This is a significant project, which, although taking up a considerable amount of AGO resource through training, pilot audits and other initiatives will leave the AGO in a very strong position in terms of its technical capabilities, delivery and making a tangible difference to the public sector through the audits which it undertakes. In the 2015 budget, additional resources have been requested to ensure that the AGO can gain the maximum benefit possible from the project. For example 50 additional teammate licenses will be required to help work with the project to secure efficiency gains in audit documentation, and better management practices.

In addition to the Capacity Development project, the AGO will continue with the services of an external consultant on a long-term contract, funded through the AGO's own resources. This will run alongside and complement the World Bank project by ensuring that:

- Financial audits are undertaken in accordance with International Standards of Supreme Audit Institutions (ISSAIs) and International Standards on (ISAs);
- The AGO makes the most effective use of its resources;
- The AGO has effective procedures to monitor the progress of audit work; and
- The AGO has effective internal quality control procedures.

Strategy

Audit of State-Owned Enterprises

As the AGO's capacity in the audit of financial statements of the State-owned Enterprises (SOEs) is limited, most of these audits are contracted out to private audit firms. However, the Contract Auditors carry out audit on behalf of the Auditor General and suggest him appropriate audit opinion based on their audit work. In turn, the Auditor General issues audit opinion. In order to ensure continuity, the Auditor General's Office will enter into three-year contracts with audit firms. Under this arrangement, the AGO will represent itself in entrance and exit meetings and will have access to the private auditors' working papers. In addition, the AGO will review the audit plans of the private sector auditors, and

will evaluate audit observations and the audit evidence supporting these observations to enable the AG to issue the audit opinion.

The AGO will work to the deadline of 30th June stipulated in the Business Profit Tax Act while giving priority to those companies that can produce financial statements by their statutory deadline. As for the external audit of listed SOEs and entities with minority Government interests, the AGO's policy is to let the boards of directors of these entities decide on the appointment of external auditors. As a policy, the AGO has taken measures to widen the scope of financial statement audits conducted under its direction by requiring additional assurances beyond the standard audit opinion. As such the AGO has expanded the audit scope to require the contracted auditor to report on the following matters pertaining to SOEs being audited:

- The profitability, liquidity, stability and solvency of the Company and also the performance of the shares (if applicable) of the Company on the Maldives Stock Exchange;
- Whether there was any delay in payment of the government's portion, if any, of any declared dividend in to the Consolidated Revenue Fund;
- Any significant cases of fraud or losses and, if so, their underlying causes;
- Any internal control weaknesses which were identified; and
- The general corporate performance indicating;
 - i. achievement against set targets and objectives; and
 - ii. whether the finances of the Company have been conducted with due regard to economy, efficiency and effectiveness, having regard to the resources utilized.

Audit of Statutory Bodies, Ministries and Local Councils

Besides conducting financial statement audits of State-owned Enterprises, the department will undertake financial statement audits of all statutory bodies. In addition, the Department will also contribute resources amounting to 1,680 hours to towards reviewing and issuing the audit reports of local councils that are outsourced to Small-and Medium sized Practices.

In order to utilize the resource-savings that may be made due to outsourcing the fieldwork of local councils, AGO will enhance the coverage of sub-entities under the ministries and Department of Judicial Administration. As such, three financial audit departments, including SOEs and SBs will carry out this extended coverage of the public institutions. SOEs and SBs Audit Department will spend a total of 2,250 hours.

Audit of Donor-Funded Projects

On the request of the funding agencies and the project implementing agencies, AGO carries out the financial statement audits of a sizeable number of donor-funded

development projects. For the audit cycle ahead, a total of 2,000 audit hours are allocated for 10 projects.

Strategy

The main objective of compliance auditing is to provide the legislature and the intended users with information on whether the audit entity follows parliamentary decisions, laws, legislative acts, policy, established codes and agreed up on terms, named authorities. The key focus of compliance audit assignments will be to identify the non-compliance and report to intended users.

The main objective of special audits is to conduct detail examination of serious allegations of fraud, misuse and wastage of public funds. The key focus on special audits will be to obtain sufficient evidence to ensure fraud, misuse and/or wastage has occurred and to submit the report to investigative authorities to take further action.

The department has allocated 1,930 hours for prior year audits, 6,160 hours for compliance and special audits and 1680 hours is allocated for council audit reviews. As we carryout ad-hoc assignments a total of 2300 hours is allocated for ad-hoc assignments. The total available hours for the department for the year 2016 will be 12,708 out of which 900 hours will be used for training purpose. As the total hours required to complete all the assignments is 12,070 the balance will be adjusted through overtime.

Strategy

In 2016 the CDR is expected to undertake 17 audit assignments and reviews of 41 local councils. These audits will be undertaken in accordance with the auditing standards prescribed by the Auditor General. These require first to analyse each entity's internal control structure and assess the risks associated with its financial report. Audit procedures will be designed to address these risks.

The public sector must adhere to high standards of probity and propriety in the stewardship of public resources.

The AGO is required to submit audit reports on the financial statements of all the accountable agencies to the Accountable Officers by 31st May of every year, pursuant to section 36 (a) of the Law on Public Finance (Law No. 3/2006). Section 35 (a) of the same law also stipulates that the accountable officer of the accountable agencies to submit their financial statements to the Auditor General for audit by 31st March every year. The AG is also required to submit the audit report on the consolidated financial statements of the State by 14th June of every year, pursuant to section 39 of the Law on Public Finances (Law No. 3/2006).

To ensure audit reports are delivered based on the above statutory time line a time schedule has been prepared stating the dates the audits will be completed by each responsible person. In this regard the respect Audit Mangers (AM) must submit all the audit reports in respect of the audits assigned to him/her before 3 May 2015 to Audit Director (AD) for review. The reports then will be submitted to AG for his review before 17 May 2016. With respect Consolidated Financial Statements the AM must submit the Audit Report along with audit file before 22 May 2016 for the AD to review. The report then will be passed to AG before 1st June 2016. This would give the AG 14 days' period to review the 17 financial audit assignments. As for local council audits, the CDR will be involved in reviewing 41 local council audits contracted out to local mid-tier audit firms.

To ensure quality and completeness of the audit file and for efficient and effective audit process the following templates have been developed and tested and will be implemented during the course of 2015 audit cycle.

- Structure and content of documentation to be used in the Teammate.
- Comprehensive audit checklist including the IPSAS standard.
- Automated risk assessment model. The automated working paper automatically calculates the size of each material during along with the risk assessment.

In addition to the above, as part of the efficient and effective audit process, every two week an accountability meeting will be held to review the progress of the audits and discuss issues in conducting the audits.
