 Notes to the financial statement 6

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

AUDITOR GENERAL'S OFFICE
Malé, Republic of Maldives

AUDITOR GENERAL'S REPORT TO THE MINISTRY OF ENVIRONMENT AND ENERGY ON THE FINANCIAL STATEMENTS OF WETLAND CONSERVATION AND CORAL REEF MONITORING FOR ADAPTATION TO CLIMATE CHANGE PROJECT

We have audited the accompanying financial statement; Statement of Receipts and Payments for the year ended 31 December 2013 and notes to this statement, as set out on pages 6 to 10 of the Wetland Conservation and Coral Reef Monitoring For Adaptation to Climate Change Project financed under the World Bank/International Development Association (IDA) Grant No TF011853 as of 25 April 2012.

Management's Responsibility for the Financial Statement

The Management is responsible for the preparation and fair presentation of this financial statement in accordance with the cash basis accounting principles. This responsibility includes: designing, implementing and maintaining internal controls relevant to the preparation and fair presentation of financial statement that are free from material misstatement, whether due to fraud or error; selecting and applying appropriate accounting policies; and making accounting estimates that are reasonable in the circumstances.

Auditor General's Responsibilities

Our responsibility is to express an opinion on this financial statement based on our audit. We conducted our audit in accordance with International Standards on Auditing. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance whether the Statement of Receipts and Payments are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statement. The procedures selected depend on the auditors' judgement, including the assessment of the risks of material misstatement of the Statement of Receipts and Payments whether due to fraud or error. In making those risk assessments; the auditor considers internal control relevant to the entity's preparation and fair presentation of the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statement.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Unqualified Opinion

In our opinion, the Statement of Receipts and Payments for the year ended 31 December 2013 presents fairly, in all material respects, the receipts and payments for the year then ended in accordance with the cash basis accounting principles.

In addition, we can provide assurance that:

- (a) The funds provided under the Grant have been utilised for the purposes for which they were provided;
- (b) The Special Account transactions and its balance as at 31 December 2013 have been presented truly and fairly on the financial statement, in accordance with the cash basis accounting principles. The cash at the end of the year shown on the Statement of Receipts and Payments reflects the cash balance which is reconciled to that of the Special Account as at 31 December 2013;
- (c) The Financial Monitoring Reports submitted could be fairly relied upon to support the applications for withdrawals in accordance with the requirements specified in the Grant Agreement; and adequate supporting documentation has been maintained to support claims to the IDA, for reimbursement of expenditures incurred and which expenditures are eligible for financing under the Grant Agreement, and
- (d) The Procurement guidelines of the World Bank have been complied with in the procurement of goods and services under the project.

Review of the Project Progress

Without qualifying our opinion, we draw attention to the following management issues observed from our review of the project progress.

Component One: Wetland Conservation

Sub component one: Community based wetland management, ecotourism, drainage and best practices

During the Financial Year (FY) ended 31 December 2013, the project has made progress in completing sub component one titled *community based wetland management, ecotourism, drainage and best practice*. A contract was signed between the Ministry of Environment and Energy (MEE) and Hidria/Aquatica on 31 March 2013 for achieving the deliverables. The development of Community Based Wetlands Management Plans (CBWMPs) for Hithadhoo and Fuvahmulah and drainage action plan for Fuvahmulah Island has been provided by the Hidria/Aquatica. In addition, design concepts and detailed designs for implementation of eco- tourism package in Hithadhoo have been received and approved by the Project Management Unit (PMU). However, we observed that the implementation of CBWMPs and drainage action plans have not been achieved as per the contract, and remains pending by the date of this report. Implementation has not been achieved due to lack of supervision provided for construction work of eco-tourism and drainage by the Hidria/Aquatica. Furthermore, documentation of best practices has neither been handed in to the PMU within the contract period nor by the date of this report.

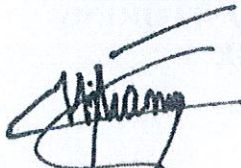

Sub component Two: Rain water harvesting in AA.Ukulhas

We have observed that the rain water harvesting in AA.Ukulhas has experienced considerable delays in achieving the deliverables. A contract was signed between the Ministry of Environment and Energy (MEE) and WAPCOS on 14th March 2013 for achieving a total of 12 deliverables. During the FY ended 31 December 2013, the project has made progress in producing a feasibility report, draft of detailed scheme report consisting of detailed engineering designs and bidding documents. However we observed that the delays in achieving the deliverables and poor performance have resulted in termination of the contract with the WAPCOS on June 2014.

Recommendations

We recommend the Project Management Unit (PMU) to take instantaneous actions to implement the activities so as to achieve the intended outcome within the project budget and time allocation. We also recommend the PMU to review and revise the deliverables of rain water harvesting in AA.Ukulhas and seek a more competent firm to deliver the expected output.

MINISTRY OF ENVIRONMENT AND ENERGY

WETLAND CONSERVATION AND CORAL REEF MONITORING FOR ADAPTATION TO CLIMATE CHANGE

NOTES TO THE FINANCIAL STATEMENTS

1. PROJECT INFORMATION

Key Highlights

Project Title: Wetland Conservation and Coral reef Monitoring for adaptation to climate change (WCCM)

Start Date: 25 April 2012

Closing Date: 30 September 2014

Approved Budget: USD 3,830,000

Funded by: Maldives Climate Change Multi- Donor Trust Fund (CCTF)

Trust Fund Manager: World Bank

1.1 Objectives

The government of Maldives and International Bank for Reconstruction and Development -International Development Association (IDA) signed an Agreement on 25 April 2012 under the project titled "Wetland Conservation and Coral reef Monitoring for adaptation to climate change". Under the agreement, IDA being the CCTF Trust Fund Manager shall provide the Ministry of Environment and Energy (MEE) with a maximum amount of up to USD 3,830,000 (Three million Eight Hundred and Thirty Thousand United States Dollars) to assist MEE to achieve WCCM objectives.

The objectives of the Wetland Conservation and Coral Reef Monitoring for Adaptation to Climate Change Project are:

- i) To strengthen the institutional capacity of MEE, the Utility and local council, for planning and demonstration of community based wetland and water resources management; and
- ii) To implement a coral reefs monitoring system, in the Project Areas.

1.2 Project components

The project consists of the following parts

1. PART A: Wetland Conservation (GN.Fuvahmulah, S.Hithadhoo & AA.Ukulhas)
2. PART B: Coral Reef Monitoring (Kaafu)
3. PART C: Project Management.

WETLAND CONSERVATION AND CORAL REEF MONITORING FOR ADAPTATION TO CLIMATE CHANGE

Part A. Wetland Conservation (Gnaviyani Fuvahmulah Island, Hithadhoo Island in Addu City and Alif Alif Ukulhas Island)

1. Community-based Wetland Management: Provision of technical support for
 - a. The development and implementation of community-based wetland management plans;
 - b. The establishment of pilot eco-tourism facilities at selected wetland sites in Hithadhoo and Fuvahmulah islands; and
 - c. The documentation of best practices in community-based wetland management.
2. Drainage Management and Rain Water Harvesting: Provision of technical and demonstrative implementation support:
 - a. To carry out a geo-hydrological assessment of selected islands for identifying measures to improve drainage and reduce flood incidence, and demonstrative investments on drainage management; and
 - b. To develop innovative models for water harvesting and demonstrative implementation of innovative water harvesting technologies
3. Mainstreaming climate change considerations: provide technical assistance, including training and training of trainers programs, to build the capacity of government officials, particularly local councillors, to equip them with the necessary skills to integrate climate change adaptation considerations into island ecosystem planning and management functions.

Part B. Coral Reef Monitoring (Kaafu Atoll)

1. Training and Capacity Building: provision of training to tourist resort staff
 - a. To undertake field data collection and to use the Coral Reef Monitoring Framework for data entry, analysis and decision making;
 - b. To strengthen the capacity of government bodies in specialized areas relevant to coral reef monitoring.
2. Monitoring of Coral Reefs: undertake field and remote sensing data collection using the coral reef monitoring protocols, including the Coral Reef Monitoring Framework and Bleaching Risk Assessment Tool.
3. Web-enables Coral Reef Monitoring Framework: support the development of a web-enabled system for the Coral Reef Monitoring Framework that is integrated with the national geographic information system (NGIS).
4. Dissemination and Policy Inputs: facilitate the extension, mainstreaming and sustainable use of the Coral Reef Monitoring Framework through wider dissemination of best practices in participatory coral reef monitoring and inputs to strengthen relevant policies and decisions.

Part C. Project Management:

Provision of support to carry out the various management functions entailed in implementing the Project, including Project monitoring and progress reporting.

MINISTRY OF ENVIRONMENT AND ENERGY

WETLAND CONSERVATION AND CORAL REEF MONITORING FOR ADAPTATION TO CLIMATE CHANGE

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

2.1 Basis of preparation

The Statement of Receipts and Payments are prepared in accordance with the cash basis accounting principles.

2.2 Recognition of Receipts and Payments

Receipts and payments are accounted for on a cash basis. Receipts are recognised when the Government of Maldives (GOM) receives the transfer of funds from World Bank. Payments are recognised at the time of payment of expenses.

2.3 Presentation Currency

The Statement of Receipts and Payments has been presented using the United States Dollars (USD). And all the figures have been rounded to the nearest Dollar.

2.4 Foreign Currency Translation

The receipts from the World Bank are deposited in a US Dollar bank account held at Maldives Monetary Authority (MMA). This account is operated via Ministry of Finance and Treasury (MoFT). Thus, MEE raises and send payment vouchers to the MoFT for making payments to vendors. The MoFT writes cheques against the Payment vouchers. In doing so, it converts the US Dollar amount to Maldivian Rufiyaa (MVR) at the MMA's USD-MVR exchange rate prevailing at the date of payment. Foreign currency gains and losses are passed through the Statement of Receipts and Payments. Thus, they are not recognised on the face of the Statement of Receipts and Payments.
